

Witchcraft 3200/3600 DDR4 Gaming Dram

Product Description:

Witchcraft (WC) series memory module uses effectively tested original chips and has undergone rigorous screening and testing to demonstrate excellent compatibility and stability.

Top grade quality with sleek heatsink design to unlock your potential.

Each memory module has 3200-3600 MT/s, which can greatly improve system operation efficiency.

Witchcraft (WC) series product Information:

Memory type	DDR4
Physical dimension	U-DIMM
Capacity	8 / 16 / 32 GB
Speed	XMP3200 / XMP3600
CL value	16-18-18 / 18-22-22
Operating Voltage	1.35V
Operating temperature	0°C - 85°C
